

# Diamond Powder

Mikrotek diamond powders are par excellent and no match by any other for quick cutting and polishing of dies with lowest RA value. They are tightly graded to ensure uniform and excellent polishing quality surface while working on dies.

Our diamond powders are selected from the rare and best suppliers from Germany, America and China.

Our diamond powders are time tested (long lasting) for their performance in reconditioning and manufacturing of Natural diamond dies, PCD dies, MONO dies and Tungsten Carbide dies.

Diamond powders are readily available in the standard packing of 100, 50 & 25 cts bottles

S.No	Type	Application	Grain size in microns			
			For ND dies	For Mono dies	For PCD dies	For TC dies
